

QUALITY POLICY STATEMENT

We will supply innovative high quality products with world-class service while continually improving everything we do to meet and surpass the requirements and expectations of our customers.

This will be achieved in conjunction with our ISO 9001:2015 accreditation and our total commitment to:

- get things right the first time;
- reduce the time we take to do everything;
- provide solutions to ensure our customers succeed;
- supply globally competitive products to satisfy our customers total quality requirements;
- undertake regular reviews of our quality management system to enhance improvements and use integrated systems with statistical techniques to monitor and drive our actions;
- involve all employees in the process of continual improvement and to adhere to the procedures to achieve a consistent approach to quality assurance;
- seek, monitor and act upon customer perception of our performance;
- ensure any quality issues are dealt with promptly at the highest level in compliance with regulatory and statutory requirements;
